Features & Benefits :

- Single shared Video/Audio storage pool available to all editing rooms
- A single video recording can be used by all rooms simultaneously and independantly
- Record different video quality (compression levels) on the same storage
- Each V1 channel is controlled by the Audio Workstation in standard RS422 & Time Code
- Move video recordings in & out of the server using video tape (VTRs) or removable V1 disks (Hard Drives or DVD-RAM)
- Full Server administration using Internet browser (IE, Netscape) on PC or Mac
