QZEO™ Announces New Reseller Agreement With JVC Professional Products Company

SAN DIEGO, CALIFORNIA – October 20, 2005 – QZEO (www.QZEO.com) QZEO, the pro broadcast reseller division of Computer Modules, Inc., announced today that it has entered into an audio-video reseller agreement with JVC Professional Products Company. JVC Professional Products Company is a leading manufacturer of professional broadcast equipment.

QZEO is a leading distributor of digital video processing and capture solutions, with over 23 years of experience in providing products and audio video systems integration to broadcasters, content creators, and other industrial users.

The GY-HD100U Camcorder from JVC

QZEO makes it easier for video professionals to combine video and computer technologies, with products that create digital video for “streaming” on computers and the Internet, or for professional broadcasts. QZEO’s numerous digital video products are used for shooting video, editing, encoding and decoding, recording/playback, video streaming, and video storage.

Adding to their extensive product line-up, QZEO is now selling audio, professional and broadcast video, and presentation products from JVC Professional Products Company -- DV and HDV video cameras, video recorder/ players and video monitors, projectors and plasma displays.

“We’re proud to sell JVC Professional Products,” said Scott Grizzle, QZEO’s Sales Engineer. “The response from our customers has been outstanding. Our many customers in San Diego and Southern California are especially impressed with the excellent production quality generated by JVC products. Our customers expect the best and most innovative video equipment available, and JVC products have a well-deserved reputation for outstanding reliability.”

JVC products being offered by QZEO include the JVC GY-HD100U, a compact, full resolution HD progressive camcorder that received an NAB Award for Innovation in Media (AIM) at NAB2005, and the BR-HD50U ProHD® recorder player -- the companion model to the GY-HD100 – designed to transfer video and audio data to a non-linear editing system. The BR-HD50U ProHD® features switchable HDV and DV modes and analog outputs.

“We’re excited to be working with QZEO,” stated Phil Burns, District Sales Manager for JVC Professional Products Company. “With QZEO’s strong expertise in digital video technology and their many long-term customers, we know they’ll be very successful.”
